

QR code Generator Prompt:

Build a responsive and user-friendly QR Code Generator Web App

Core Features:

1. QR Code Generation:

- Users can generate QR codes for:
 - ✓ Website URLs
 - ✓ Text / Messages
 - ✓ WiFi Credentials (SSID & Password)
 - ✓ Contact Information (vCard)
 - ✓ Social Media Links (Instagram, YouTube, WhatsApp)
 - ✓ Email & SMS (Pre-filled messages)
 - ✓ Payment Links (UPI, PayPal, Stripe)

2. Customization Options:

- Change **QR code colors** (Dark Mode, Custom Colors)
- Add **logo or branding** inside the QR Code
- Choose **different QR code styles (square, rounded, dots, etc.)**
- Adjustable **QR code size & resolution**

3. Download & Sharing:

- Download QR codes in **PNG, SVG, PDF formats**
- Generate **dynamic QR codes** (editable later)
- One-click sharing to **WhatsApp, Instagram, Email, etc.**

4. UI/UX Requirements:

- **Mobile-first, lightweight, and fast loading**
- **Drag & Drop interface for logo uploads**
- **Built with React, Next.js, or Vue.js for smooth performance**

◆ **Ensure the app is SEO-optimized for search engines like "Free QR Code Generator," "Dynamic QR Code Maker," etc.**

AI Based Video Reels & Shorts Editor Prompt

Build a smart, AI-powered, user-friendly online Video Editor for Reels & Shorts.

Core Features:

- 1. Upload & Basic Editing:**
 - Users can upload videos (MP4, MOV, WebM, etc.)
 - Trim, cut, and merge video clips
 - Adjust playback speed (slow-motion, fast-forward)
 - 2. AI-Powered Enhancements:**
 - Auto Subtitle Generator (Speech-to-Text)
 - Background Noise Removal
 - Auto-Crop for Instagram Reels, TikTok, YouTube Shorts
 - AI-Powered Color Correction
 - 3. Text & Effects:**
 - Add animated text overlays
 - Choose from viral caption styles
 - Apply **trending video effects & transitions**
 - 4. Music & Sound Effects:**
 - Royalty-free **music library**
 - Auto sync video to beat
 - Voiceover feature with AI text-to-speech
 - 5. Pre-Made Templates:**
 - Ready-to-use templates for **YouTube Shorts, Instagram Reels, and TikTok**
 - Templates for viral trends (e.g., motivational reels, meme edits, cinematic edits)
 - 6. Export & Sharing:**
 - Download videos in **1080p HD** without watermark (Premium Feature)
 - 7. UI/UX Requirements:**
 - **Mobile & desktop-friendly design**
 - **Drag & drop interface**
 - Built with **React, Next.js, or Vue.js** for smooth performance
- ◆ **Use AI for automatic video enhancements, making editing fast and beginner-friendly!**

eCommerce Product Profit Calculator Web App Prompt

Build a modern, responsive, and user-friendly eCommerce Product Profit Calculator Web App.

Key Features:

1. Cost Breakdown Inputs:

- Product Cost (₹, \$, etc.)
- Shipping Cost
- Packaging Cost
- Marketing/Ad Spend
- Platform Fees (e.g., Shopify, Amazon, Flipkart)
- Additional Costs

2. Profit Margin Calculation:

- Selling Price
- Total Expenses

- Profit Margin (%)

3. Tax & Fees Calculator (Optional Toggle):

- GST / VAT Calculation

4. Breakeven Analysis:

- Number of Sales Needed to Cover Costs
- Suggested Pricing for 20% / 30% / 50% Profit

5. UI/UX Requirements:

- Modern, mobile-friendly **responsive design**
- Interactive **real-time calculation** (JS or AJAX)
- Dark Mode option
- Clean UI with **Bootstrap or Tailwind CSS**

◆ Use technologies that ensure fast performance and scalability (React, Next.js, or Vue.js with Node.js backend).

Barcode Generator and Scanner Prompt

Build a modern, user-friendly, and fast Barcode Generator & Scanner Web App.

Core Features:

✔ Barcode Generation:

- Users can generate barcodes in **different formats**, including:
 - **UPC-A, UPC-E** (Retail Products)
 - **EAN-13, EAN-8** (European Barcode Standard)
 - **QR Code** (For URLs, Payments, etc.)
 - **Code 39, Code 128** (Logistics & Inventory)
 - **ISBN** (Books & Publications)
 - **DataMatrix, GS1-128** (Warehouses & Healthcare)
- Option to **customize barcode size & format**
- Download as **PNG, JPG, SVG, PDF**

✔ Barcode Scanner:

- Users can **scan barcodes using their phone or webcam**
- Auto-detects barcode type and displays information
- Redirects to relevant pages for product searches (Google, Amazon)
- Option to **copy scanned barcode data to clipboard**

✔ Bulk Barcode Generator (Premium Feature):

- Users can **upload CSV files** to generate barcodes in bulk
- Download barcodes in **ZIP format**

✔ UI/UX Requirements:

- **Mobile-first, lightweight, and fast loading**
- Simple **drag-and-drop UI for bulk upload**
- **Dark Mode & Light Mode toggle**
- Built with **React.js, Next.js, or Vue.js** for smooth experience

◆ Ensure the app is **SEO-optimized for keywords like "Free Barcode Generator," "Barcode Scanner Online," "Bulk Barcode Maker," etc.**

URL Shortner Prompt

Build a modern, fast, and feature-rich URL Shortener **Web App with Custom Branding** (Bitly Alternative).

Core Features:

✔ URL Shortening:

- Users can shorten long URLs into **custom, branded short links** (e.g., yourbrand.com/custom-link).
- Option to **generate random or custom slugs** (e.g., xyz.ly/sale2025).
- QR Code generation for each shortened link.

✔ Custom Domain Branding:

- Users can **connect their own domain** for short links (e.g., mystore.in/deal).
- DNS setup guide for domain integration.

✔ Advanced Analytics & Tracking:

- Track **clicks, geo-location, device type, OS, browser, and referrer source**.
- Real-time statistics dashboard with **interactive charts**.
- UTM parameter support for **Google Analytics tracking**.

✔ Link Expiration & Access Control:

- Set **expiration date** or click limit for each link.
- Password protection for private links.

✔ Bulk URL Shortening (Premium Feature):

- Users can upload **CSV files** to shorten multiple links at once.
- Download shortened URLs as **CSV or JSON**.

✔ API for Developers:

- Provide an **API key-based system** for automated link shortening.
- API documentation with usage examples.

✔ Monetization Strategy:

- **Freemium Model:** Basic link shortening free, premium features paid.
- **Subscription Plans:** Unlimited links, custom domains, deep analytics.
- **Affiliate Marketing:** Recommend **hosting, domains, analytics tools**.
- **Google AdSense / Sponsored Ads** for free users.

✔ UI/UX Requirements:

- **Fast, mobile-responsive, lightweight design**.
- **Dark Mode & Light Mode toggle**.
- Built with **React.js, Next.js, or Vue.js** for smooth experience.

◆ Ensure the app is **SEO-optimized** for keywords like "Best URL Shortener," "Custom Branded Links," "Free Link Tracker," etc.

Online File Converter Prompt

Build a fast, user-friendly, and multi-format Online File Converter **Web App**.

Core Features:

✔ File Format Conversion:

- Users can **upload & convert files** between multiple formats, including:
 - **Document:** PDF ↔ DOCX, PPT ↔ PDF, Excel ↔ CSV
 - **Image:** JPG ↔ PNG, PNG ↔ SVG, WebP ↔ JPG
 - **Audio:** MP3 ↔ WAV, AAC ↔ MP3
 - **Video:** MP4 ↔ WebM, AVI ↔ MP4
 - **Other:** HTML ↔ PDF, ZIP ↔ RAR

✔ Bulk File Conversion (Premium Feature):

- Users can **upload multiple files** and convert them in bulk.
- Download all converted files as a **ZIP archive**.

✔ Fast & Secure Processing:

- **Cloud-based processing** for quick conversions.
- **Auto-delete files** after X minutes for privacy.

✔ Download & Sharing Options:

- Download converted files in **original or compressed size**.
- **One-click sharing** via email or QR code.

✔ UI/UX Requirements:

- **Mobile-friendly, lightweight, and fast loading.**
- Drag & drop file upload with **progress bar**.
- Built with **React, Next.js, or Vue.js** for a smooth experience.

◆ Ensure the app is **SEO-optimized** for keywords like "Free File Converter," "Convert PDF to Word Online," "MP4 to MP3 Converter," etc.
